

**SOUTH TEXAS
COLLEGE**

HANDBOOK OF FACULTY CREDENTIAL REQUIREMENTS

For Courses by Discipline/Program

**Office of the Vice President for Academic Affairs
South Texas College**

Academic Year 2018-2019

Introduction

The *Handbook of Faculty Credentials Requirements for Courses by Discipline/Program* is designed to provide information about the *minimum* required credentials to teach a course at South Texas College.

South Texas College (STC) recruits and employs the most qualified faculty members to accomplish the mission and goals of the College. When determining acceptable qualifications of its faculty, STC gives primary consideration to the highest earned degree in the discipline in accordance with the guidelines listed in this **Manual**. The College also considers competence, effectiveness, and capacity, including, as appropriate, undergraduate and graduate degrees, related work experiences in the field, professional licensure and certification, honors and awards, continuous documented excellence in teaching, or other demonstrated competencies and achievements that contribute to effective teaching and Course Learning Outcomes (CLOs). For all cases, the College is responsible for justifying and documenting the qualifications of all its faculty.

The *Handbook of Faculty Credentials Requirements for Courses by Discipline/Program* lists the disciplines and courses offered at the College and the minimum credential and qualification requirements for each course. The Handbook provides individual credential tables by discipline, program, and course:

- Division of Business, Public Safety, and Technology
- Division of Liberal Arts and Social Sciences
- Division of Math, Science, and Bachelor Programs
- Division of Nursing and Allied Health

Both the **Manual** and the **Handbook** are published on the South Texas College Academic Affairs *Faculty Resources* webpage.
