Search for Students

1. Go to homepage and use the MSIX number to search for each student.
2. Look at enrollments. If the child has an enrollment and withdrawal date from that state, the child may be in your district. Check against your school enrollment records.
3. By clicking on the dropdown arrow, the MEP Program/School information will appear if contact needs to be made.

Note: This is another method of recruitment. Children may already be identified in your district; however, this process may assist in locating other children we may have missed.
