# Jigsaw and Padlet Time!

## Critical concepts in distance learning for multilingual learners

The current state of affairs has caused a shifting tide from face-to-face instruction to online learning and out-of-the-classroom learning through online platforms; apps; paper packets being sent home; letters and communications; and other creative means to keep students learning.

Educators have done a phenomenal job all over the world in transitioning to remote learning and are working diligently to meet the needs of each student in their classes. But for emergent bilingual and multilingual students, many issues have arisen in terms of meeting their instructional needs.

The intent here is not to share specific resources, as myriad resources are available from a variety of sources. Rather, there are a few critical concepts in instructing these students that hold true for both face-to-face as well as distance learning, be it online or through paper packets, that we should always strive to consider and embed into our instruction.

# Jigsaw and Padlet Time!

1. Go to your **BREAKOUT ROOM**.
2. Read your assigned **TEXT**.
3. Go to **PADLET**.
4. Choose a **VISUAL** that represents the main idea of your text.
5. Add **3 BULLETS** summarizing the information.
6. Be ready to **SHARE!**
