

6th Annual Effective Border Schools Conference Multiliteracy: The Key to Unlocking Global Competence

Hosted by ESC1 Center For Excellence in Education of Diverse Students in collaboration with Project RISE

Look no further for effective practices for diverse learners!

Now more than ever, multiple modes of communication in more than one language are evidently crucial to not only survive, but to thrive in a global interconnected society.

Identifying, interpreting, creating, and communicating effectively across content areas, in multiple languages, through visual, oral, musical, or written literacy modes, allows students an opportunity to make sense of their world in a deeper way and gain a stronger voice to become fierce agents of change.

Join us to learn how to empower your diverse students through multiliteracy approaches to help them develop socio-cultural and global competence!
