### TEKS (KS/SE)

Expressions, equations, and relationships. The student applies mathematical process standards to develop concepts of expressions and equations. The student is expected to:

R	6.3D	Add, subtract, multiply, and divide integers fluently.
R	6.7A	Generate equivalent numerical expressions using order of operations, including whole number exponents and prime factorization.
S	6.7C	Determine if two expressions are equivalent using concrete models, pictorial models, and algebraic representations.
R	6.7D	Generate equivalent expressions using the properties of operations: inverse, identity, commutative, associative, and distributive properties.

### TEKS Bundle

**6.7 A, B, C, D**
