Skills-Based (Elementary) Report Cards

Prerequisites:

- The logo that is imported using the ASCENDER District Administration > Tables > District Logos page will display on the Skills-Based Report Card.
- Skills-based grading must be enabled at the campus (i.e., **Use Elementary Skills-based Report Card** on **Grade Reporting > Maintenance > TeacherPortal Options > Campus > Options**). Ensure that an elementary campus ID is selected on the page when enabling this setting.
- You must be logged on to TeacherPortal with a district- or campus-level security administrator user ID.
- You must select an elementary campus from the Administrator Options page. **Any changes you make will apply to all elementary campuses in the district.**

This page allows you to set up report cards that teachers can print from the Grades menu. For each report card, you select the components that you want to print on the report card.

Each course is associated with a report card, so the report card options are applied to the course.

This is the first of two pages. On the Step 2 page, you will select the skills that will be assessed on the report card.

NOTE: You must specify a logo in the **Choose District Logo** field. Otherwise, the message “No logo files found” is displayed, and the changes to the page are not saved.

Selected skills are listed.

Ord	<p>Indicate the order in which the skills will appear within each skill set on the report card. Type 1 to list the skill first, type 2 to list the skill second, and so on.</p> <p>You can also indicate the order in which the skill sets are listed on the report card. Each skill set has an Ord field allowing you to specify its position. For example, type 1 for the skill set to be listed first. This does not apply to the letter, number, and word skill sets which will appear in grid format on the report cards.</p>
Notes	<p>Type notes about the skill that will print on the report card.</p> <p>When you click in the field, the space expands to allow you to view more of the message you are typing. When you click out of the field, the space reverts to displaying only one row of the notes.</p> <p>Any notes entered here are also displayed for the teacher on the Assignment Grades page when hovering over the skill name.</p>
Sem#C#	<p>Specify the semester and cycle in which the skill should be assessed. For each skill, select the appropriate Sem#C# field.</p> <p>These fields are only displayed if all semester and cycle grade reporting headers are set to the same value. For example, all grade reporting headers must be set to two semesters per year and two cycles per semester. If even one campus is set to a different value (such as one track set to 2sem-3cyc, and one track set to 2sem-2cyc), the fields are not displayed, and a message is displayed indicating that cycle availability is unavailable.</p> <p>When these fields are in use, the report card will be shaded to indicate the skills being assessed in the semester-cycle for which the report card was printed. You must select at least one cycle for each skill. If all cycles are unselected, the program will automatically select all cycles when you save.</p> <p>For the Letters, Numbers, Spanish Letters, Color Word Recognition, Rote Counting, and High Frequency Word list skills, all Sem#C# fields are selected by default and cannot be changed.</p> <p>For Rote Counting only, an additional field is displayed below the Sem#C# field allowing you to type up to three alphanumeric characters. The field is optional and provides a place for you to further indicate the cycle expectations. For example, for the skill Backwards, you could type /10 for Sem1C1 to indicate that the student is expected to count backwards from 10 by semester 1 cycle 1. You could type /25 for Sem1C2 to indicate that the student is expected to count backwards from 25 by semester 1 cycle 2, and so on.</p>

If any skills need to be removed from the report card, select the skills and click  to remove the selected skills from the report card.

The removed skills are again listed under **Available Skills**.

Click **Save**.

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page allows you to associate a course (and all of its sections) with a specific elementary skills-based report card. The settings for the report card determine how grading is handled for the course.

NOTE: If a section is added to a course after the course is selected for elementary skills-based grading, the new section will not have elementary skills-based grading associated with it.

Courses that are eligible to be set up to use elementary skills-based grading report cards are listed.

Courses that are being used as category- or standards-based/skill-referenced courses (e.g., a category-based course that has one or more categories assigned) are not eligible to be used as an elementary skills-based course.

Course Name	To narrow the list of courses, type all or part of a course name and click Search . The list is filtered according to the data you entered.
Report Card Type	For each course, select the report card type. The types list is pre-set. You can customize each type on Admin > Elementary Report Cards > Manage Elementary Skills-Based Report Cards .

[Print report cards & IPRS by campus.](#)

[TeacherPortal Admin > Elementary Report Cards > Print Elementary Report Cards by Campus](#)

This page allows you to select the elementary report card to print and printing options. The selected report card determines the students whose report cards are printed.

These report cards can also be used as interim progress reports if needed. You can change the heading from “Report Card” to “Interim Progress Report” by selecting **Print Elementary Report Card as an IPR**.

IMPORTANT: Use the Firefox or Chrome browser when printing report cards as an administrator. Do not use Internet Explorer.

The report cards display data according to options set on the [Admin Manage Elementary Skills-Based Report Cards](#) pages. The following components may be included:

- Letter Recognition skills grid *
- Number Recognition skills grid *
- Spanish Letter Recognition skills grid *
- High-Frequency Word Recognition skills grid *
- Color Word Recognition skills grid *
- Rote Counting skills grid *
- Parent/guardian signature line
- Attendance data, including excused absences, unexcused absences, and tardies by semester-cycle
- The description of the grading type as entered on [Manage Elementary Skills-Based Report Cards - Page 1](#) under **Grading Type Description**. On report cards, this is displayed under the **Grading Guide** heading.

* Expectations for the cycle or quarter may also be displayed.

The following may also be included:

- A description of a specific skill is displayed in italic font below the skill name, as entered by an administrator on [Admin > Manage Elementary Skills Sets](#). This description is unique to the skill.

- A skill note may be displayed below the skill name with a bullet if it was entered by an administrator on the [Admin > Manage Elementary Skills-Based Report Cards](#) page. The skill note is unique to the skill and the report card.
- A student-specific skillset note may be displayed below the skillset if it was entered by the teacher on [Grades > Elementary Report Cards > Elementary Report Cards Student Notes > Skillset Notes](#).
- Under **Teacher Notes**, the notes entered on the [Elementary Report Card Student Notes](#) page by semester-cycle are displayed.
- If the report card is set up to assess only certain skills during a semester-cycle, the report card is shaded to indicate the skills being assessed in the semester-cycle for which the report card was printed. The table cells for skills that are not being assessed are shaded gray. Note that background printing must be enabled in order for the shading to appear on the printed report cards.
- Quarters 1-4 may be displayed instead of semesters-cycles, depending on the setting entered on [Admin > Manage Elementary Skills-Based Report Cards](#).

Printing tips

Report cards are designed to print with the parent/guardian address positioned so that it appears in the window of a standard envelope if the paper is folded into thirds. (This also applies to elementary skills-based IPRs printed via [Grades > Elementary Report Cards > Print Elementary Report Card](#).)

Background colors may not automatically print, depending on your browser settings. For more information, [click here](#).

Before printing report cards or IPRs, you may want to change the Page Setup options to enable or disable printing of headers and footers. **Be aware** that if the headers and footers are disabled, page numbers are not printed, and there is a risk of the report pages (i.e., the actual papers) getting out of order inadvertently. This could potentially result in a student receiving the wrong subsequent pages of the report card or IPR if there are multiple pages. However, you may want the headers and footers disabled for a neater appearance.

- In the browser from the File menu, select Page Setup.
- Under **Headers and Footers**, ensure that one of the **Headers** or **Footers** fields is set to display the page number. Or, clear all **Headers** and **Footers** fields to print report cards without this data.

IMPORTANT: Make note of any data that you are deleting so you can reset the headers and footers after you print the report cards or IPRs.

- Click **OK** to save the settings and close the Page Setup dialog box.

Semester	Select the semester for which you want to print report cards.
Cycle	Select the cycle for which you want to print report cards.
Report Card	Select the particular report card type you want to print. This determines the students whose report cards will be printed.

Print Elementary Report Card as an IPR	Select if you are printing the report card(s) to be used as an interim progress report. If selected, the heading "Interim Progress Report" will print at the top of the report instead of "Report Card." IMPORTANT: Ensure that this field is not selected if you are producing actual report cards.
Include Report Cards with no Grades	Select to include report cards for which there are no grades. Otherwise, report cards with no grades are not printed.
Print Prior Year's Data	Select to print the report card with prior year data, instead of current year data, according to the Semester and Cycle selections.
Report Card Note	Select to print the report card with prior year data, instead of current year data, according to the Semester and Cycle selections.

Print a Blank Page Between Teachers	Select to insert a blank page between each teacher. NOTE: If Double-Sided Printing is selected, the program will insert two blank pages between each teacher.	
Double-Sided Printing	Select to use double-sided printing. You must adjust your printer to do double-sided printing. If this field is selected, and you selected Print a Blank Page Between Teachers , the program will generate two blank pages between teachers.	
	Blank Page Between Students	This field only appears if you select Double Sided Printing . Select to print a blank page between students.

Click **Print selected student report cards**.

The [Elementary Report Cards by Campus](#) page opens.

[Copy skills-based grades](#).

[TeacherPortal Admin > Elementary Report Cards > Copy Elementary Skills-Based Report Card Grades](#)

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page allows you to copy elementary skills-based grades from one cycle to the next, as long as grades do not already exist for the next cycle. This allows skills that have already been accomplished to appear on IPRs and report cards for subsequent cycles, giving parents an overall view of the student's progress for the year to date.

NOTE:

- Copying grades should occur at the end of each cycle, after all grades have been entered for the current cycle, but before any grades are entered for the next cycle.
- The next-cycle grade fields on Grades > Assignment Grades page will be populated with the copied grades.
- District-level users must select a campus; campus-level administrators can only copy for the campus you are logged on to.
- Copying grades occurs for all teachers at the campus.

Semester 2 Cycle 2 Summary

For each semester and cycle of the school year, a summary is displayed indicating the number of courses that have grades, and the options available for copying grades from one cycle to the next.

- If grades already exist for the semester-cycle, the message “Courses Already Have Grades This Cycle” is displayed, and the option to copy is not available for that semester-cycle.
- If grades do not exist for the semester and cycle, a button is displayed allowing you to copy grades from the previous semester-cycle.

NOTE: You cannot copy any data to semester 1 cycle 1. The message “No Previous Data to Copy From” is displayed, and the option to copy is not available.

- To copy grades from one cycle to the next, click the appropriate button.

For example, to copy grades from semester 1 cycle 1 to semester 1 cycle 2, click the **Copy Grades from Semester 1 Cycle 1** button, which appears under **Semester 1 Cycle 2 Summary**.

A message is displayed indicating that grades were copied from semester 1 cycle 1 to semester 1 cycle 2.

- At the end of the next cycle, repeat the steps.

Report card components

Each skills-based course is associated with a particular report card, and the report card prints according to district-level settings specified for the report card. You can also use a report card as an IPR by changing the heading from “Report Card for yyyy - yyyy” to “Interim Progress Report.”

The following sample three-page report card shows various components that may appear on an elementary skills-based report card or IPR, depending on district-level settings for the course.

A: If you selected the **Print Elementary Report Card as an IPR** option, the title “Interim Progress Report” is displayed. Otherwise, the title “Report Card for yyyy - yyyy” is displayed.

B: The **Non-Mailing Report Card** field on [Manage Elementary Skills-Based Report Cards](#) determines whether the mailing address is printed. If the non-mailing option is selected, the address is omitted to allow more data to print on one page. Otherwise, the address is positioned so that it appears in the window of a standard envelope if the paper is folded into thirds.

C: If a message has been entered in the **District Message** field on [Manage Elementary Skills-Based Report Cards](#) for the report card you are printing, it is displayed at the top of the report card. If there is no district message for the report card, the heading is also not displayed.

D: If **Use Quarterly Display** is selected on [Manage Elementary Skills-Based Report Cards](#) for the report card you are printing, quarters are displayed instead of semesters.

Q: Under **Attendance**, a message indicates the period in which students are recorded tardy or absent, as specified by report card in the **Attendance Period** and **Tardy Period** fields on [Manage Elementary Skills-Based Report Cards](#).

R: Under **Grading Scale**, a description of the grading scale used for the course is displayed, as entered in the **Grading Type Description** field on [Manage Elementary Skills-Based Report Cards](#). The **Grading Scale** heading is displayed even if a description is not entered.

S: If **Print Parent Signature Line** is selected on [Manage Elementary Skills-Based Report Cards](#), a parent/guardian signature and date line is displayed at the end of the report card.

T: If **Conference Requested Line** is selected on [Manage Elementary Skills-Based Report Cards](#), a check box is displayed on the report card, after the parent signature line, allowing the parent/guardian to request a conference.

The following may also be included on the report card:

- If the report card is set up to assess only certain skills during a semester-cycle, as indicated in the **Sem#C#** fields on [Manage Elementary Skills-Based Report Cards](#), the grid is shaded gray to indicate the skills not being assessed.

In this example, the handwriting skill is not assessed until semester 2 cycle 1:
