

WEST TEXAS LSSP AND LPC COHORT MEETING: THREAT ASSESSMENT, INTERVIEWING AND REPORT WRITING!

Learning to complete a threat and violence risk assessment is like learning to play chess. The foundational concepts are fairly easy but obtaining mastery comes with on-going study, guidance, and experience.

This course is designed to provide team members the skills they need to understand the terminology and process of violence risk and threat assessment, practical guidance regarding interviewing skills to obtain information from the person being assessed and direction on how to write a report in a way that provides useful and accessible guidance to the referral source.

FRIDAY

OCTOBER 4TH, 2024

AT 9AM -4PM
