

# BTLPT Score Accelerator Preparation Course

The **Bilingual Target Language Proficiency Test (BTLPT)** is a vital certification exam in Texas, designed to ensure that bilingual educators possess the necessary language skills to effectively teach and support emergent bilingual students. In a state with a significant number of Spanish-speaking students, the BTLPT exam plays a crucial role in assessing teachers' proficiency in Spanish across listening, speaking, reading, and writing skills. Passing this exam confirms that educators have the linguistic capability to deliver content in students' native language, fostering a more inclusive and equitable learning environment.

A direct solution for achieving successful BTLPT scores is a two-fold preparation course. First of all, an intensive solution for the two sections in which test-takers score the lowest: Speaking and Writing. Participants will be ready to significantly increase their scores in a swift timeframe, by viewing specialized video lessons, complemented by practicing with sample BTLPT questions, receiving daily individualized feedback throughout the course.

Secondly, a flexible software-based solution for the remaining two sections, Reading and Listening. Most participants are already somewhat proficient in both of these skills, though additional refining is required to comply with the specific question formats of the BTLPT.

## Consulting Expertise

With 25+ years of experience helping adult professionals, our consultants can set you up on the path to success!

## Cost-Effective and Time-Efficient

Participants will be ready to significantly increase their scores all across the board on the BTLPT, receiving individualized feedback throughout the course and daily practice on the online software platform.

## Important Information

### Timeline

- 8 one-hour asynchronous webinars every Saturday, beginning on 01/18 and ending on 03/08.
- 30 minutes of daily homework receiving individualized feedback, with focus on continuous improvement.
- Access to the online practice platform during 90 days.

### Cost

- Introductory price: \$825 p/person.
- Includes all study materials, 8 asynchronous webinars, and individualized feedback on daily homework for 8 weeks, plus access to the online practice platform for 90 days.
- An extra fee of \$50 p/person will be added for a preliminary diagnostic assessment.
