

# STC Data Summit 2025

The background of the slide is a dark, abstract digital graphic. It features a central, glowing blue and purple spiral or vortex shape. This central element is surrounded by various digital motifs, including smaller glowing particles, thin white lines, and circular patterns that suggest data flow or network connections. The overall aesthetic is futuristic and data-oriented.

Sociology, Anthropology, Social Work

# About

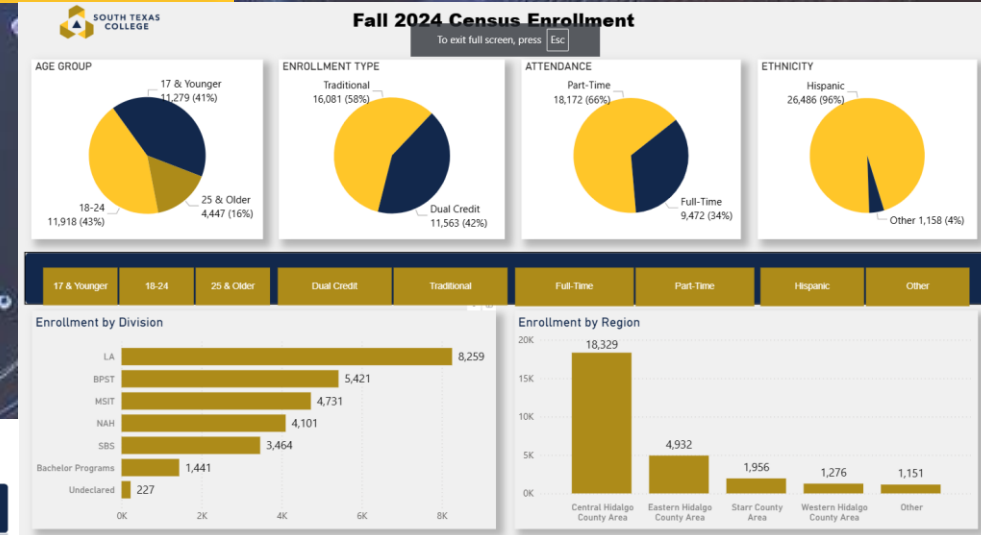

- In preparation for this year's data summit, RAS created data sets that would be analyzed with Microsoft PowerBI. Access was given to chairs with the note that instructors would not be given access to the platform in order to avoid the potential of crashing the data set. To prepare for the summit, chairs were requested to pull out any necessary information that may help with summit activities and goals, as well as information centering on *course success*
- The following presentation has information on:
  - Course Success Rates (per college requests)
  - Other Course Success Data (pulled out based on trends)
  - Other institutional Data (pulled out based on trends)
- Want more data? Send Rolo an email with request.

# Dashboards

• Three dashboards for data exist:

- Course Success
- Enrollment Metrics
- Graduate Awards Metrics
