

BTLPT Score Accelerator Summer Preparation Course

The **Bilingual Target Language Proficiency Test (BTLPT)** is a vital certification exam in Texas, designed to ensure that bilingual educators possess the necessary language skills to effectively teach and support emergent bilingual students. In a state with a significant number of Spanish-speaking students, the BTLPT exam plays a crucial role in assessing teachers' proficiency in Spanish across listening, speaking, reading, and writing skills. Passing this exam ensures that educators have the linguistic capability to deliver content in students' native language, fostering a more accessible learning environment.

A direct solution for achieving successful BTLPT scores is a two-fold preparation course. First of all, an intensive solution for the two sections in which test-takers score the lowest: Speaking and Writing. Participants will be ready to significantly increase their scores in a swift timeframe, by viewing specialized video lessons, complemented by practicing with sample BTLPT questions, receiving daily individualized feedback for 6 straight weeks.

Secondly, a proprietary software-based solution loaded with hundreds of Reading and Listening questions similar in format and content as the official BTLPT exam, featuring immediate automated feedback for each inaccurate answer choice, which constructively improves the student's grasp of the intricacies of BTLPT questions.

Consulting Expertise

With 25+ years of experience helping adult professionals, our consultants can set you up on the path to success!

Cost-Effective and Time-Efficient

Participants will be ready to significantly increase their scores all across the board on the BTLPT, receiving personalized feedback for 6 weeks and daily practice on the online software platform for 6 extra weeks.
