

# ACTIVE LEARNING FOR STUDENTS WITH COMPLEX ACCESS NEEDS

## 3 day Summer Academy

This 3-day workshop introduces the Active Learning Approach designed for learners at the most fundamental developmental levels of development (under 48 months) regardless of chronological age. Participants will gain simple yet powerful strategies that promote independence, engagement, and meaningful learning for this population through purposeful exploration—transforming how students explore, interact, and thrive.

### Audience:

- Adaptive Education
- Early Childhood including ECSE
- Teachers of Students with Visual Impairments
- Certified Orientation & Mobility Specialists
