

## Curriculum Tools for Low Incidence Disabilities

---

Texas Essential Knowledge and Skills (TEKS) is the curriculum for all students, including students with Low Incidence Disabilities (LID). Students with LID access grade-level TEKS through alternate standards called Essence Statements and developmental pre-requisite skills. Due to the extensive supports students require to access, participate and show progress in TEKS, typical curriculum tools such as textbooks and worksheets do not provide meaningful and authentic learning opportunities for these students. There are curriculum tools that are designed and tested for students with LID that are aligned to grade level TEKS. These curriculum tools are listed by content area in this chart with live links to websites for detailed information and pricing. Please note: There are no curriculum tools that are fully inclusive of all of the TEKS. Thus, teachers will still need to design and create lessons to fill in the gaps in the curriculum tool.

Grade Level	Title / Publisher Name and Website	Digital/Print/Blended	Name and Product Description (from websites)
<b>CROSS- CURRICULAR</b>			
PPCD- Transition	Unique Learning Systems  <a href="https://www.n2y.com/products/unique/">https://www.n2y.com/products/unique/</a>	Blended	Unique Learning System® is an award-winning, online, standards-based set of interactive tools specifically designed for students with special needs to access the general curriculum.
