The modernization of the E-rate program and the implementation of the E-rate Productivity Center (EPC) have changed the landscape and in many ways complicated the E-rate Program.   We will be sponsoring an all-day training on the E-rate Program to help our districts better understand the intricacies and changes to the program.   Andrew Eisley and Caroline Wolf from E-Rate Central will be facilitating the workshop.

The workshop will cover the following topics:

Understanding programmatic changes

- Learning strategies for managing the phase out of Telephony Services
- Studying New rules for fiber build outs
- Maximizing Category 2 budget dollars
- Conducting an E-rate compliant procurement
- Developing strategies for success

- **Be prepared with questions and ready to discuss any unique challenges you may face!**

If you are involved with the E-rate program for your school or district, you will not want to miss this important workshop!
