The LAS Links Student Profile Sheet is used for tabulating the student's score. This profile sheet should be used with the LAS Links Interpretation Guide. Once completed, this form can be included in the student's school records. Because the validity of these scores depends on the accuracy of scoring individual items, Examiners must be familiar with the test and the scoring information contained in the Examiner's Guide.

2 Tabulate the Number Correct for each skill area. Use the answer keys in the Interpretation Guide to determine the Number Correct for each sub-test (i.e., Speak in Words). Enter the Number Correct in each box. Then add these numbers to determine the total of each skill area (i.e., Speaking).
