Who says History can't be fun?

This engaging academy for Grade 8 students, will focus on critical social studies content from Colonization through Reconstruction. Students will explore historical eras through engaging, targeted interventions that address the needs of all learners.

Students will deepen their knowledge with hands-on activities that require them to become historians, critical thinkers and problem solvers. Social Studies concepts will be customized to student expectations demonstrating low or partial mastery. Students will collaborate with their peers, while learning content through a variety of research based instructional strategies.

Students will leave more motivated, excited and better prepared for STAAR!
