

Slide 1

Time: 5 minutes

Note to trainer:

Welcome the participants and introduce yourself along with any other co-presenters that may be assisting you in the delivery of the training. Share logistical information with the participants, such as the location of restrooms, breaks, lunch, etc. Say **“It is in the LEA’s discretion to determine the timeline of these trainings based on their needs.”**

Processing Activity:

None

Materials needed:

Classroom Readiness Evaluation Self-Reflection (handout)

Classroom Ecological Design Tool (handout)

Stages of Second Language Acquisition Checklist (handout)

Effective Early Childhood Instruction for the Young EL (companion tool)

Sentence stem written on chart paper or the board: My intention for today is _____.

Appropriate early childhood read aloud or big book for shared reading

Chart paper, several sheets
Markers
Sticky notes
Writing utensils
Internet access (optional)

Training Goals

Content Objective

- Participants will examine appropriate instructional activities Title III, Part A-funded local educational agencies (LEAs) may implement in order to ensure that young ELs attain high levels of academic achievement in English.

Language Objective

- Participants will discuss, read, and write using provided resources related to appropriate instructional activities and considerations in order to ensure that young ELs attain high levels of academic achievement in English.

Slide 2

Time: 2 minutes

Note to trainer:

Say, “Let’s begin by taking a look at our objectives for this TOT. We will examine appropriate instructional activities and considerations Title III, Part A-funded local educational agencies (LEAs) may implement in order to ensure that young ELs attain high levels of academic achievement in English. We will read, discuss, and write using some resources that will be provided today.”

Processing Activity:

None

Materials:

None

Purpose

The purpose of the Title III Early Childhood Education for English Learners session and Texas Gateway online course is to provide educators support for young students whose primary language is not English. Early childhood education for young ELs is critical for language and literacy development. Thus, preschool programs must purposefully design instruction and include home-school connections specifically for young ELs. This session will provide teachers and administrators a better understanding of how to design early childhood instruction to meet the needs of young ELs' language development and examine the critical areas of academic success.

Slide 3

Time: 3 minutes

Note to trainer:

Read the slide aloud.

Processing Activity:

None

Materials needed:

None

Slide 4

Time: 5 minutes (or 15 minutes depending on internet access and the participants' needs)

Note to trainer:

Say, “**The Title III Early Childhood Education for English Learners online course will be available in the Texas Gateway by September 30, 2017 (or say, “is available in the Texas Gateway,” if after September 30, 2017). The Texas Gateway can be found at www.texasgateway.org/courses. Once an account is created, participants may log in and search for the course. Under the search area type in the title of the course. At top of the webpage, click on the Course tab to start. At the completion of the course there will be a quiz to provide participants credit for the course. Course certificates can be found under the Progress tab.**” Show the participants where they can find the online course and the corresponding handouts and companion by taking them through the steps to access the Texas Gateway.

Processing Activity:

If time permits and there is internet access, take the participants to the live Texas Gateway site to ensure they have an account and know how to access

the course.

Effective Early Childhood Instruction for the Young EL companion tool

Slide 7

Time: 3 minutes

Note to trainer:

Pass out the additional handouts that will be used in today's session: *Classroom Readiness Evaluation Self-Reflection*, *Classroom Ecological Tool*, and *Stages of Second Language Acquisition*. Say, **"We will use three of the handouts that are also available in the online course today."** Explain that they will be used during various sections of the training.

Processing Activity:

None

Materials needed:

Classroom Readiness Evaluation Self-Reflection (handout)
Classroom Ecological Design Tool (handout)
Stages of Second Language Acquisition Checklist (handout)

Slide 8

Time: 5 minutes

Note to trainer:

Say, **“At this time, I’d like to direct your attention to the page 1 of the companion tool, *Effective Early Childhood Instruction for the Young EL*.”** Since the text on the slide is quite small, invite the participants to follow along in their booklet. Explain that this section, along with the next slide, is the rationale for why the session, online course, resources, and companion tool were created.

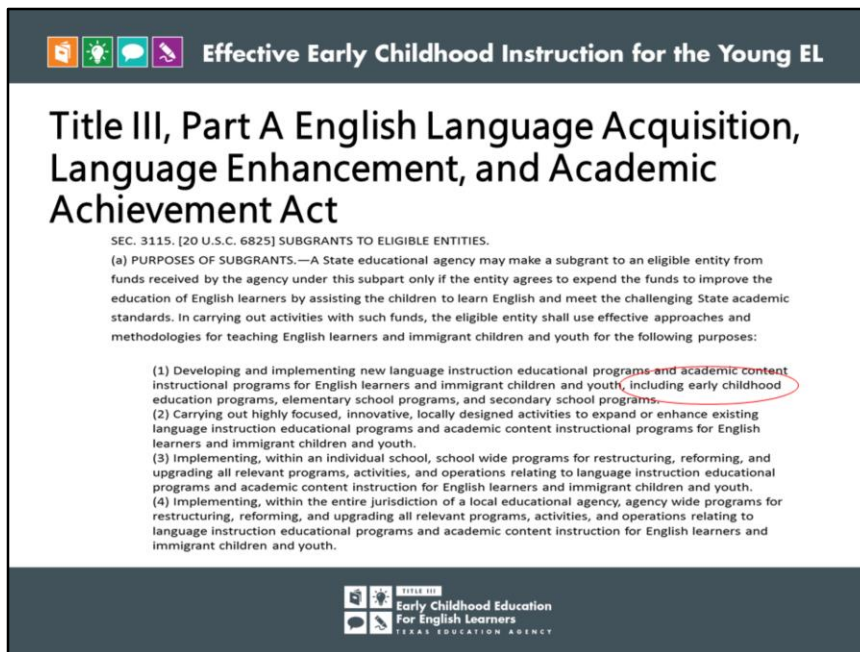

Processing Activity:

Allow the participants time to read through Section 3102 of ESSA.

Once the participants have read through it, ask if there are any questions or clarifications needed. Click on the slide to direct the participants’ attention to the red oval that will appear. Ensure that explain that this includes preschool teachers, hence, the rational for the session and resources. Click again and another red oval will appear. Again, point out that this includes preschool teachers.

Materials needed:

Effective Early Childhood Instruction for the Young EL companion tool

Slide 9

Time: 5 minutes

Note to trainer:

Direct the participants' attention to the next section that is applicable to LEAs who receive funds for the instruction of ELs. Say, **"On page 1 of the companion tool, *Effective Early Childhood Instruction for the Young EL*, you will find section 3115 in ESSA."** Since the text on the slide is small, invite the participants to follow along in their booklet.

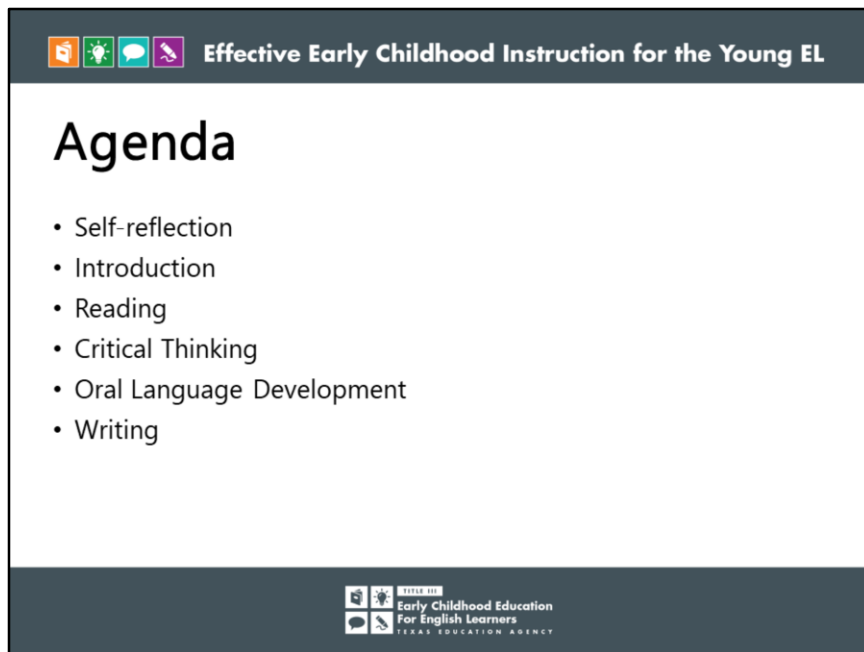

Processing Activity:

Allow the participants time to read through Section 3115 of ESSA.

Once the participants have read through it, ask if there are any questions or clarifications needed. Click on the slide to direct the participants' attention to the red oval that will appear. Point out that this includes early childhood programs, hence, the rationale for the session and resources.

Effective Early Childhood Instruction for the Young EL

Self-Reflection

Slide 11

Time: 10 minutes

Note to trainer:

Say, “Let’s begin by considering where we are now in our classroom readiness. We know that in Section 3102 of the Every Student Succeeds Act, we read that one of the purposes of the section is to the assist teachers, including preschool teachers, principals, and other school leaders, to develop and enhance their capacity to provide effective instructional programs designed to prepare English learners. What we will do right now is engage in a self-reflection activity.”

Processing Activity:

Ensure that the participants have the handout, *Classroom Readiness Evaluation Self-Reflection*. Explain that this activity is a self-reflection, and results will not be shared with the group. Allow five minutes to complete the checklist. Once the participants have completed it, have them reflect on their responses and invite them to write an intention for today’s training based on their reflection. An example may be to seek out more information regarding how to promote activities that use simple language to encourage oral language development or how to encourage young ELs to write independently. Remind

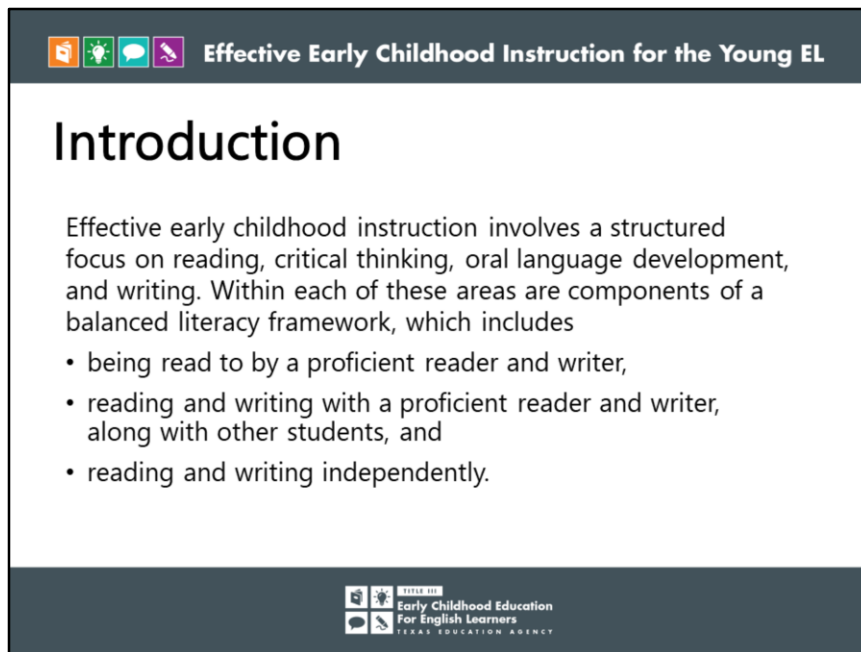

them that the goal today is to help build their capacity in providing quality instruction to young ELs. Guide them to the sentence stem written on chart paper or on the board. Allow two minutes to complete the sentence stem. Remind them that they are encouraged to seek clarity during the session.

Materials:

Classroom Readiness Evaluation Self-Reflection (handout)

Sentence stem written on chart paper or the board: My intention for today is

_____.

The slide features a dark blue header with four icons (a book, a lightbulb, a speech bubble, and a pencil) on the left and the title "Effective Early Childhood Instruction for the Young EL" on the right. The main content area is white with the title "Introduction" in a large, bold, black font. Below the title, a paragraph explains that effective early childhood instruction involves a structured focus on reading, critical thinking, oral language development, and writing, all within a balanced literacy framework. This framework includes three bullet points: being read to by a proficient reader and writer, reading and writing with a proficient reader and writer along with other students, and reading and writing independently. The footer is dark blue and contains four small icons, the text "TITLE III", "Early Childhood Education For English Learners", and "TEXAS EDUCATION AGENCY".

Effective Early Childhood Instruction for the Young EL

Introduction

Effective early childhood instruction involves a structured focus on reading, critical thinking, oral language development, and writing. Within each of these areas are components of a balanced literacy framework, which includes

- being read to by a proficient reader and writer,
- reading and writing with a proficient reader and writer, along with other students, and
- reading and writing independently.

TITLE III
Early Childhood Education
For English Learners
TEXAS EDUCATION AGENCY

Slide 12

Time: 10 minutes

Note to trainer:

Say, **“Let’s discuss what we mean by a balanced literacy framework.”**

Read the slide.

Say, **“The balanced literacy framework requires critical thinking. Students make connections across reading, writing, and speaking, allowing them to gain metalinguistic awareness as they continue to communicate and make sense of language. Early childhood instruction centered around reading, writing, oral language, and critical thinking will develop a positive start to a journey of success in literacy, especially for the young EL.”**

Processing Activity:

Say, **“Think back to a time in which you learned a new skill. How did you learn how to do it?”**

Allow the participants ample time to consider an example before allowing them

five minutes to share with a partner. Ask for volunteers to share out. After the participants have shared, ask what was involved in the task in order for it to be a successfully learned skill. Write down ideas on chart paper. The key ideas to capture are that there was conversation, questioning, curiosity, modeling, practicing, and doing it on their own. Tie this back to young English learners and stress that it is imperative that they be provided opportunities for proficient modeling, practicing, and doing it on their own.

Materials:

Chart paper with “Learning New Skills” written on the top

Markers

Reading

Through being read to, reading with others, and having the opportunity to read independently, young ELs begin to increase their knowledge of the structure of the English language and broaden their vocabulary.

Effective strategies include

- read alouds,
- shared reading, and
- independent reading.

Slide 13

Time: 15 minutes

Note to trainer:

Say, “Through these opportunities, students begin to see their own role in making meaning of printed text. Young ELs will imitate what is modeled to them. Through these opportunities, not only reading skills are developed. Young ELs begin to develop their oral language skills, critical thinking skills, and even their writing skills. Let’s take this opportunity to see how many skills we can discover.”

Processing Activity:

Use this time to either conduct a read aloud of an appropriate early childhood book OR a big book to use as a shared reading opportunity. If you are conducting the read aloud, emphasize to the participants that they will listen to modeled reading. If you are conducting a shared reading with a big book, invite them to read along with you, particularly repeated text.

After conducting the read aloud or shared reading, pass out sticky notes to all participants OR ask participants to get a few. Ask the participants to write an example of a reading, oral language, critical thinking, and writing skill that is

developed through this activity on a sticky note. Allow 10 minutes for them to write down examples of some of the skills that are developed on the sticky notes and post them on the chart paper. Afterward, debrief by going over highlights of what was written down.

Some big topics in the reading skills area that may be discussed if not written down are the following:

- Phonological and phonemic awareness
- Print and book knowledge
- Alphabet knowledge
- Phonics
- Fluency
- Comprehension
- Vocabulary
- Grammar
- Pragmatics

(These are just examples of topics to explore.)

Materials:

Appropriate early childhood read aloud or big book for shared reading
Four sheets of chart paper with titles, Reading, Critical Thinking, Oral Language Development, and Writing
Sticky notes
Writing utensils

Reading

Some considerations for meaningful reading instruction include

- choosing culturally relevant texts,
- selecting books that young ELs can connect to based on their prior experience and knowledge, and
- exposing young ELs to books that offer the opportunity to hear new vocabulary, language structures, and context-embedded experiences.

Slide 14

Time: 5 minutes

Note to trainer:

Read the slide to the participants.

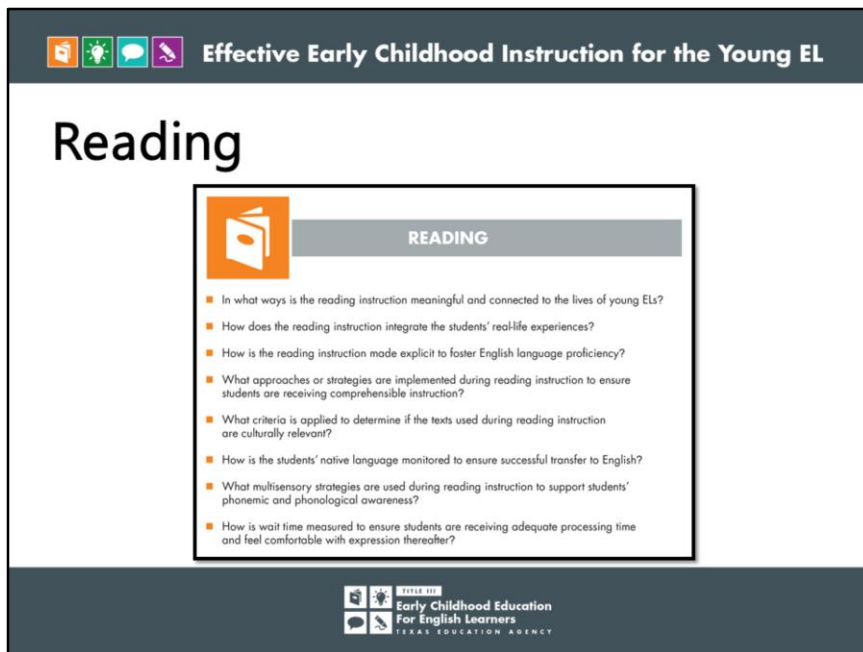

Say, “For young ELs, school can be the main source of adjustment to both language and school culture. In school, young ELs begin to integrate aspects of the new school culture, while retaining, or modifying, traditions from home. Having a strong sense of their own cultural history and traditions helps young ELs build a positive cultural identity for themselves. Creating an effective school environment through positive cultural experiences, engaging cognitive activities, and language-rich environments promotes and can increase opportunities for achieving English proficiency.”

Processing Activity:

None

Materials:

None

Slide 15

Time: 10 minutes

Note to trainer:

Guide the participants to turn to their companion tool, page 4.

Processing Activity:

Say, **“The companion tool includes a list of questions to assist the teacher in ensuring these considerations have been addressed. Let’s take a few minutes to review the questions.”**

Depending on the size of the group, divide the questions on page 4 and assign to pairs or small groups. Allow the participants 10 minutes to discuss their assigned question(s) and determine how they will integrate these questions into their reading lesson plans in the classroom.

Materials:

Effective Early Childhood Instruction for the Young EL (companion tool), page 4

Critical Thinking

Some considerations for meaningful opportunities include

- listening for individual responses as young ELs socially connect with other children and communicate through engaging activities,
- differentiating levels of questioning in order to allow young ELs to feel confident in responding, and
- planning activities that engage all learners at various stages of language acquisition to foster higher-level thinking.

Slide 16

Time: 5 minutes

Note to trainer:

Read the slide to the participants.

Say, “For young ELs, school can be the main source of adjustment to both language and school culture. In school, young ELs begin to integrate aspects of the new school culture, while retaining, or modifying, traditions from home. Having a strong sense of their own cultural history and traditions helps young ELs build a positive cultural identity for themselves. Creating an effective school environment through positive cultural experiences, engaging cognitive activities, and language-rich environments promotes and can increase opportunities for achieving English proficiency.”

Processing Activity:

Materials:

None

Levels of Questioning

Stage	Sample Student Behaviors	Sample Teacher Behaviors	Questioning Techniques
Preproduction 0-6 months	<ul style="list-style-type: none">1. Shows a lot of interest in the environment.2. Responds to the teacher's voice.3. Responds to the teacher's touch.4. Responds to the teacher's facial expressions.5. Responds to the teacher's tone of voice.	<ul style="list-style-type: none">1. Responds to the teacher's voice.2. Responds to the teacher's touch.3. Responds to the teacher's facial expressions.4. Responds to the teacher's tone of voice.5. Responds to the teacher's body language.	<ul style="list-style-type: none">1. Ask the child to repeat the word.2. Ask the child to point to the object.3. Ask the child to name the object.4. Ask the child to describe the object.5. Ask the child to explain the object.
Early Production 6 months - 1 year	<ul style="list-style-type: none">1. Produces one or two word utterances.2. Responds to the teacher's voice.3. Responds to the teacher's touch.4. Responds to the teacher's facial expressions.5. Responds to the teacher's tone of voice.	<ul style="list-style-type: none">1. Responds to the teacher's voice.2. Responds to the teacher's touch.3. Responds to the teacher's facial expressions.4. Responds to the teacher's tone of voice.5. Responds to the teacher's body language.	<ul style="list-style-type: none">1. Ask the child to repeat the word.2. Ask the child to point to the object.3. Ask the child to name the object.4. Ask the child to describe the object.5. Ask the child to explain the object.
Speech Emergence 1-2 years	<ul style="list-style-type: none">1. Produces two or three word utterances.2. Responds to the teacher's voice.3. Responds to the teacher's touch.4. Responds to the teacher's facial expressions.5. Responds to the teacher's tone of voice.	<ul style="list-style-type: none">1. Responds to the teacher's voice.2. Responds to the teacher's touch.3. Responds to the teacher's facial expressions.4. Responds to the teacher's tone of voice.5. Responds to the teacher's body language.	<ul style="list-style-type: none">1. Ask the child to repeat the word.2. Ask the child to point to the object.3. Ask the child to name the object.4. Ask the child to describe the object.5. Ask the child to explain the object.
Intermediate Fluency 2-3 years	<ul style="list-style-type: none">1. Produces four or five word utterances.2. Responds to the teacher's voice.3. Responds to the teacher's touch.4. Responds to the teacher's facial expressions.5. Responds to the teacher's tone of voice.	<ul style="list-style-type: none">1. Responds to the teacher's voice.2. Responds to the teacher's touch.3. Responds to the teacher's facial expressions.4. Responds to the teacher's tone of voice.5. Responds to the teacher's body language.	<ul style="list-style-type: none">1. Ask the child to repeat the word.2. Ask the child to point to the object.3. Ask the child to name the object.4. Ask the child to describe the object.5. Ask the child to explain the object.
Advanced Fluency 3-5 years	<ul style="list-style-type: none">1. Produces six or seven word utterances.2. Responds to the teacher's voice.3. Responds to the teacher's touch.4. Responds to the teacher's facial expressions.5. Responds to the teacher's tone of voice.	<ul style="list-style-type: none">1. Responds to the teacher's voice.2. Responds to the teacher's touch.3. Responds to the teacher's facial expressions.4. Responds to the teacher's tone of voice.5. Responds to the teacher's body language.	<ul style="list-style-type: none">1. Ask the child to repeat the word.2. Ask the child to point to the object.3. Ask the child to name the object.4. Ask the child to describe the object.5. Ask the child to explain the object.

Slide 17

Time: 15 minutes

Note to trainer:

Pass out the *Stages of Second Language Acquisition Checklist* if participants do not have it yet.

Say, “**According to Krashen and Terrell (1983), children move through five predictable stages: preproduction, early production, speech emergence, intermediate fluency, and advanced fluency. In order for students to engage in meaningful critical thinking, activities must be structured that follow a sequential order from physical responses to one-word responses to analyzing and synthesizing. Understanding students’ levels of language acquisition and tailoring questions to their level or skill allows the young ELs to engage more fully by being able to practice the language and use academic vocabulary.**”

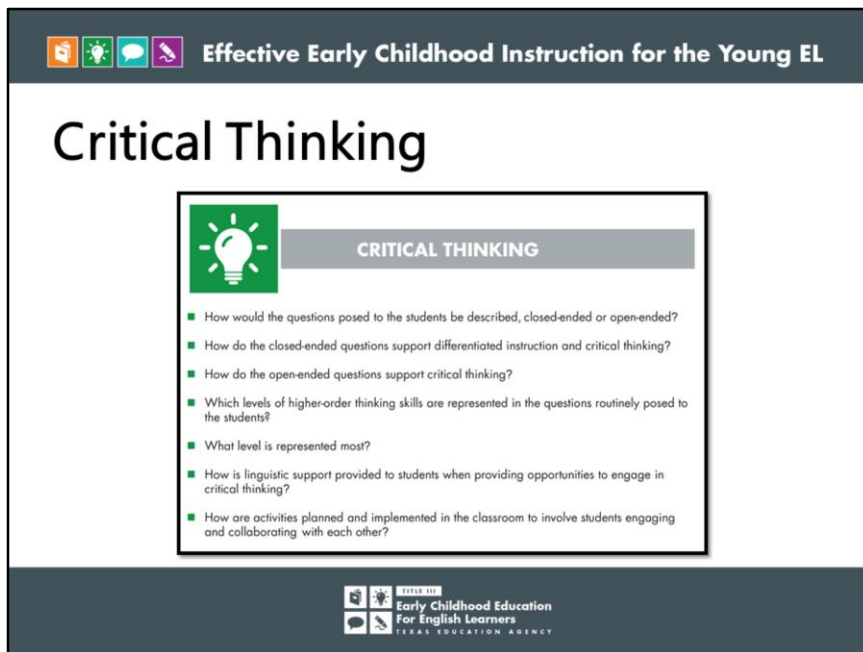

Processing Activity:

Allow time to review the checklist prior to engaging in the processing activity. Ask the participants to recall several students from their classroom or other children. Recalling the read aloud or shared reading activity, have the

participants write three questions about the text to encourage critical thinking using differentiated questioning techniques, based on the children's language levels. Ask the participants to volunteer examples of questions.

Materials:

Stages of Second Language Acquisition Checklist (handout)

Slide 18

Time: 10 minutes

Note to trainer:

Guide the participants to turn to their companion tool, page 6.

Processing Activity:

Invite the participants to look through the questions on page 6. Have them choose one question they feel they haven't considered in their classroom and would like to develop. When all participants have chosen a question, ask them to discuss how they will address it with a partner. Allow 10 minutes for discussion. As you monitor the groups' involvement, make note of any guiding questions that are selected for continued development so you can bring them to the forefront to discuss as a whole group.

Materials:

Effective Early Childhood Instruction for the Young EL (companion tool), page 6

Oral Language Development

Some considerations for incorporating oral language opportunities and activities include

- understanding that the speed of language acquisition is due to factors both within the child and in the child's learning environment,
- creating a positive classroom environment to promote discovery, and
- valuing the young ELs and the uniqueness of each.

Slide 19

Time: 5 minutes

Note to trainer:

Ask the participants who is familiar with the Affective Filter Hypothesis by Krashen (1987) and ask what implication it has for oral language development. Allow for participants to share their ideas aloud.

Say, “**The Affective Filter Hypothesis asserts that a number of affective variables impact second language acquisition. These variables include motivation, self-confidence, and anxiety (Krashen, 1987). This hypothesis of second language development relates to the significance of providing an environment that is comfortable and supportive, promoting the desire to explore learning. The affective filter is an invisible psychological filter that can support or disrupt learning, especially while learning a second language. When the affective filter is high, students may experience stress, anxiety, and a lack of self-confidence that may inhibit learning and developing a second language. A low affective filter facilitates comfort and self-confidence, thereby increasing a student's willingness to take risks and explore in the classroom, which may expedite the learning process. A student's**

affective filter can be raised or lowered as a result of the environment, interactions with students and teachers, or personal factors such as insecurity and anxiety. Early childhood teachers should strategically structure their classroom environments and instructional practices in an effort to lower the affective filter for young ELs.”

Processing Activity:

Ask the participants to orally share what type of planned activities can be incorporated into the classroom to ensure the young ELs have opportunities and an environment that is conducive to lowering their affective filter to develop oral language.

Some suggestions may include:

Sharing time

Show and tell

News of the day/Morning message

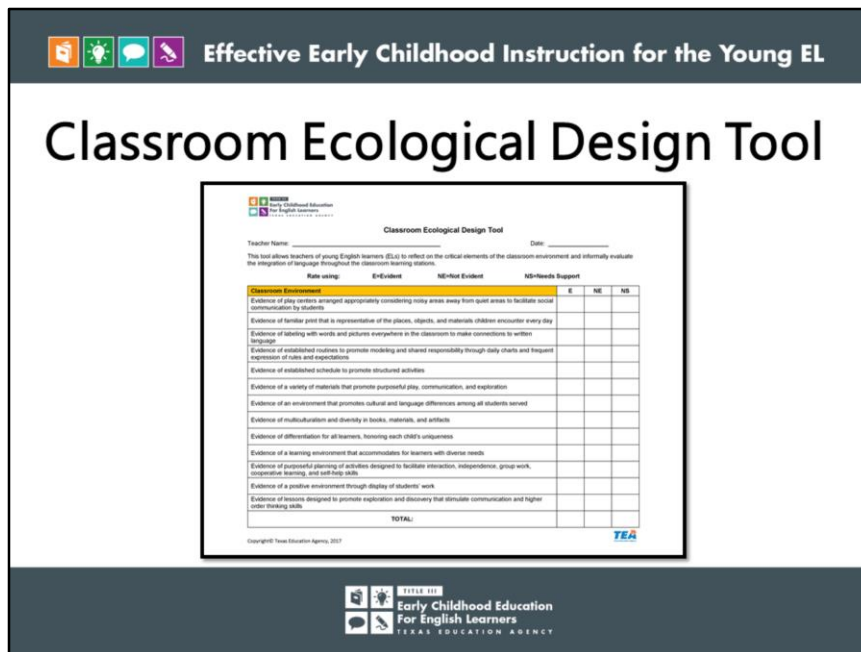

Read aloud sessions

Small group instruction

Center/work stations

Materials:

None

Slide 20

Time: 10 minutes

Note to trainer:

Say, “Young ELs must have a developmentally appropriate setting that is language-rich in supporting and developing academic and social competence. Creating an effective school environment through positive cultural experiences, engaging cognitive activities, and language rich environments promotes and can increase opportunities for achieving English proficiency. A young EL’s current strengths and skills should serve as the starting point for new experiences and instruction (TEA, 2015). The Ecological Design Tool is specific to this session and its purpose is to use in early childhood classrooms.”

Processing Activity:

Pass out the Classroom Ecological Design Tool and allow the participants to through each section. Ask how the statements can help create a positive classroom environment. Allow time for discussion.

Materials:

Classroom Ecological Design Tool (handout)

Classroom Connections

Slide 21

Time: 5 minutes

Note to trainer:

Tell the participants that on this slide and the next two slides, they will see a classroom image. They will have the opportunity to evaluate the image using the *Classroom Ecological Design Tool*. The recommendation is to have the same tool be used for each image.

Processing Activity:

Have the participants use their *Classroom Ecological Design Tool* and focus on the Classroom Environment. Show the image on the slide and ask the participants to look at their tool and decide which classroom environment statements correlate with the image. Discuss in small groups and then have them share aloud.

Materials:

Classroom Ecological Design Tool (handout)

Classroom Connections

Slide 22

Classroom Connections

Slide 23

Time: 5 minutes

Note to trainer:

Show the slide.

Processing Activity:

Show the image on the slide and ask the participants to look at their tool and decide which classroom environment statements correlates with the image. Discuss in small groups and then have them share aloud. Say, “**Keep in mind that Title III’s focus is on English acquisition, which can be successfully acquired when the needs of the home language are met. Labels may be added in the home language to assist with transfer.**”

Materials:

Classroom Ecological Design Tool (handout)

Effective Early Childhood Instruction for the Young EL

Oral Language Development

ORAL LANGUAGE DEVELOPMENT

- What are the implications of oral language development in reference to reading and writing?
- What steps are taken to determine the language and communication background of students?
- How is the physical arrangement of the classroom considered when planning for oral language activities?
- How are oral language development activities incorporated into daily reading instruction?
- How are oral language development activities incorporated into daily writing instruction?
- How are opportunities provided to students for orally sharing their experiences when participating in shared reading?
- How are opportunities provided to students for sharing new experiences?
- How is the use of sentence stems embedded in instruction based on students' language proficiency levels?
- How is repetition and imitation encouraged?

TITLE III
Early Childhood Education
For English Learners
TEXAS EDUCATION AGENCY

Slide 24

Time: 15 minutes

Note to trainer:

Guide the participants to turn to their companion tool, page 8.

Processing Activity:

Invite the participants to look through the questions on page 8. Have them read the guiding questions and consider the affective filter with the young ELs' cultural background in mind. Based on the size of the group, assign a guiding question to each small group for discussion. Have them focus on ensuring a comfortable environment for young ELs that considers fostering a positive self-image and self confidence while ensuring a low level of anxiety. Allow 10 minutes for discussion in small groups. Then ask groups to share with the whole group the big ideas they discussed in their small groups.

Materials:

Effective Early Childhood Instruction for the Young EL (companion tool), page 8

Writing

By watching a proficient writer, engaging in the writing process with a proficient writer and other students, and having opportunities to write on their own, young ELs begin to increase their knowledge of the structure of the English language and broaden their vocabulary.

Effective strategies include

- modeled writing,
- shared/interactive writing, and
- independent writing.

Slide 25

Time: 15 minutes

Note to trainer:

Say, “Through these opportunities, students begin to see their own role in making meaning of printed text. Young ELs will imitate what is modeled to them. Through these opportunities, not only writing skills are developed. Young ELs begin to develop their oral language skills, critical thinking skills, and even their writing skills. Let’s take this opportunity to see how many skills we can discover.”

Processing Activity:

Use this time to either conduct a modeled writing in front of the participants OR allow for a shared/interactive writing opportunity. If you are conducting a modeled writing activity for them, then have a relevant topic in mind as you brainstorm with them what to write. A suggestion is to ask them their opinion on a current news item or something relevant to their role. Write in front of them, while asking them for the ideas to construct along the way to emphasize the oral language and critical thinking skills that are needed to engage in the activity. If you are conducting a shared/interactive writing activity, then incorporate the same thinking skills as in the modeled writing, but this time,

allow for participants to go up and do some of the writing.

After conducting the modeled writing or interactive writing activity, get a few sticky notes and record examples of a reading, oral language, critical thinking, and writing skill that is developed through this activity on a sticky note. Allow 10 minutes for them to write down examples of some of the skills that are developed on the sticky notes and post them on the chart paper. Afterward, debrief by going over highlights of what was written down.

The idea that must be emphasized is that there is a reading-writing connection and that the same skills that are developed in reading are also developed in writing. Note that the following were already highlighted in the reading section: Some big topics in the reading skills area that may be discussed if not written down are the following:

- Phonological and phonemic awareness
- Print and book knowledge
- Alphabet knowledge
- Phonics
- Fluency
- Comprehension
- Vocabulary
- Grammar
- Pragmatics

(These are just examples of topics to explore)

Materials:

Four sheets of chart paper with titles, Reading, Critical Thinking, Oral Language Development, and Writing already used

Sticky notes

Writing utensils

Writing

Some considerations for meaningful writing instruction include

- choosing topics that are relevant to the young ELs that allow them to be involved in the process,
- thinking aloud during the writing process, and
- exposing young ELs to various types of writing that offer the opportunity to hear new vocabulary, language structures, and context-embedded experiences.

Slide 26

Time: 15 minutes

Note to trainer:

Say, “Through writing, educators are able to vary the amount of support naturally, considering what we know about the affective filter and differentiated instruction based on the young ELs’ language levels.”
