

JUST READ MINI-CONFERENCE

©Creative Commons-readingmotivation.com

Just Read focuses on reading entire books to increase reading volume, capacity, and complexity over time. Day one of the conference features a guest speaker. Day two features hands-on activities and practical research-based strategies that build reading independence through novel studies and deepen thinking through writing about reading. As a result, a classroom culture focused on the love of reading will be established.

Featuring virtual presentation by Ariel Sacks, author of Whole Novels for the Whole Class: A Student-Centered Approach
