Student and Teacher Testimonies

"I did a pilot study of two dyslexic students; both students were performing below grade level and were receiving intervention. The students started using the C-Pen Reader Pen in gen-ed setting. As a result, both students passed the STARR exam."

-Texas special education teacher

"Using the C-Pen Reader Pen, I was able to access my intelligence that was under used. During class, I was able to gain a higher level of conceptual mapping and therefore, I was more efficient in class and while studying. As a result my grades improved."

-Adult dyslexic student in college
