## The Novel Revolution: Winning the Whole-Class Battle

### *The Novel Revolution: Winning the Whole-Class Battle* **WS # 89483**

This session will invite teachers to create a culture of reading novels in the classroom. Teachers will learn how to foster an environment that mirrors a real-life reading and leads to deep discussions of literature and allowing students to respond authentically to what they are reading. Teachers will be able to plan lessons that are more student-centered and will develop literary analysis and response skills for any text. Sit back and watch students blossom into lifelong readers who will be more successful on reading and writing assessments with less of the traditional test preparation methods.

**T-TESS/T-PESS:**

*Dimension 1.4 Activities, Dimension 1.1 Standards and Alignment*

**Region One Education Service Center**  
Division of Instructional,  
School Improvement, and  
College Readiness Support
