

ELA/R Elementary Sessions 2018-2019

Students' ability to read and write on grade level with high levels of thinking does not happen by chance. Through this series of sessions participants will learn how to impact student achievement through research-based strategies and activities that increase reading (and writing) fluency, stamina, and comprehension. The sessions will include vocabulary development, building background knowledge, literary analysis, and writing. These sessions will help teachers build all students' confidence and ability up to the highest level of comprehension and analysis and will include strategies for diverse populations. Each session includes a scheduled one hour, follow-up Zoom meeting. *TTESS Domains - 1.1, 1.2, 1.4, 2.2, and 2.4*
